

Where does Ontario's electricity come from?

The following is a breakdown of Ontario's system-wide supply mix for 2021.

Nuclear
55.3%

Hydro
23.3%

Natural Gas
8.1%*

Solar
2.5%

BioEnergy
0.5%**

Wind
9.0%

Other
1.2%***

*Includes Lennox and dual fuel (natural gas/bioenergy) consistent with IESO. **IESO's embedded generation data set combines biomass and gas.

*** Non-Contracted represents a variety of fuel types that the IESO is unable to categorize due to a lack of information from Local Distribution Companies (LDCs).

SIMPLIFY YOUR BILLING

Equal Billing and Equal Monthly Payment Plans are available to our residential and small business customers:

1

EQUAL BILLING

Customers are billed an the same amount each month based on the previous year's bills. A mid-year and end of year update is done to ensure your monthly amount is accurate.

2

EQUAL MONTHLY PAYMENT PLAN

The equalized amount is withdrawn automatically from your bank account each month. A mid-year and end of year update is done to ensure your monthly amount is accurate.

We will review the amount charged mid-year to make sure it reflects the average usage on the account.
If more than one payment is missed, the plan may be cancelled but the customer will be contacted prior to any cancelation.
